Fall/Winter 2025

The art of being well-rested

Let yourself be transported to a world where natural beauty and effortless flair merge seamlessly. A world where the art of sprezzatura –that subtle Italian elegance achieved without visible effort –is at the heart. It's all about balance: between refinement and simplicity, craftsmanship and modernity, comfort and allure.

Our inspiration lies close to home –quite literally. We're in her home, the place where she feels most herself. It's a space full of warmth and personality, with historical details and an artisanal character. Large windows let in the soft winter light, while outside an idyllic scene unfolds: swaying grasses and a quiet landscape revealing its richest colours now that the leaves have fallen. Nature is calm, honest, and raw –a muse that never disappoints.

Inside, the collection breathes that same tranquility. Soft materials, unexpected contrasts, and carefully curated prints tell a story of conscious living, with attention to every detail.

Print layered on print, colour upon colour –always with subtlety and depth. Here, her mysterious and personal style comes to life. She embraces comfort without letting go of beauty: fabrics that feel soft to the touch, yet radiate strength and elegance.

The colour palette captures the season's magic –from deep, saturated hues to light, fresh accents. The colours reflect her moods: passionate, balanced, subtle, optimistic. This is a colour chart that doesn't just inspire, but invites calm, wonder, and personal interpretation.

With this collection, we celebrate not only the beauty of everyday life, but also the power of slowing down, of seduction, and of true craftsmanship. Every product invites you to rediscover your home –as a sanctuary, as an expression of style, and as the place where you can be entirely yourself.

This is Essenza. Made for you. And always enchanted by nature.

Chapter 1

Surrender to slowness

In a world that never seems to stand still, true strength lies in slowing down. Our first chapter of the season invites you to surrender to the gentle rhythm of life, where muted colours bring a sense of serenity and calm into the home. A mindful sanctuary – a place where the soul finds rest in stillness, and the healing touch of nature is felt in every moment of the day. The outside world may be hectic, but peace prevails within our interiors. With the designs from this chapter, you create a

true retreat for the soul. An escape from constant external stimuli, allowing space to reconnect with yourself and nature. An interior that encourages slowness – and the rediscovery of balance.

This chapter unfolds in two drops:
Drop 1 – An ode to rest and Drop 2 – Timeless Tranquility. Each with its own atmosphere, yet both imbued with a sense of calm and stillness.

Drop 1

An ode to rest

Discover the art of stillness – through soft materials, elegant textures and a calming colour palette. Fresh green tones symbolise new energy and are subtly balanced by Anthracite,

Greige and Vanilla. Even bold elements like the hand-painted Fedelia leopard print find their place within this harmonious whole. A gentle ode to inner peace and natural beauty.

Thanks to its breathable and moisture-absorbing properties, the duvet cover is suitable for all seasons. The name Aziza, of Egyptian origin, means 'precious', 'beloved', or 'cherished' – a meaning that perfectly reflects this special piece, which stands for pure quality and elegance.

The central placement of the bouquet gives the print a powerful, almost painterly quality, while the soft colours and delicate details bring calm and balance.

Madia is made from 100% organic cotton satin, GOTS certified. The Luca print reveals the charm of simplicity. This clean, modern, and geometric design brings a refined flair to your bedroom. The pattern consists of a series of squares, each outlined with lines that contrast beautifully against the soft background. Within each outline lies a subtle light border, adding extra depth. The result is a harmonious and perfectly balanced composition that exudes calm, with a contemporary yet timeless look that elevates any bedroom.

Turn the duvet cover over and you'll find the plain background colour, providing balance to the overall design. Made from 100% cotton satin, the duvet cover is breathable and moisture-absorbing. Cotton satin is without a doubt our favourite fabric for bedding. Its special satin weave gives it a gentle sheen and makes it feel noticeably softer and smoother than regular cotton.

Large, airy tulips grace the cover in a composition that breathes space. The generous spacing allows each flower to shine, while the subtle movement in the design creates a dancing, almost lifelike effect.

Tosca is made from 100% cotton satin. The soft, smooth fabric feels comfortable against the skin and features a slight sheen that brings the print to life. Finished with refined piping along the edges, it's a harmonious blend of art, luxury, and natural softness.

Subtle colour nuances and intricate patterns add depth and texture, giving the design a rich, almost tangible appearance.

Maribel Oatmeal

100% yarn dyed cotton matelassé, reverse satin woven

100% garen geverfd katoen matelassé, achterzijde satijn geweven

100% garngefärbte Baumwolle Matelassé, Rückseite Satingewebe

Discover the Maribel duvet cover: this refined floral pattern has been carefully transformed into a beautiful matelassé design. Through this unique weaving technique, the flowers gain a subtly quilted effect, bringing each bloom to life with depth and texture. A yarn-dyed technique adds a delicate structure to the fabric, giving Maribel its elegant character – perfect as a modern classic for any bedroom. The reverse side of both the duvet cover and the pillowcases is plain and smooth, ensuring a restful night's sleep.

Matelassé is a special weaving technique used to create textured fabric. The term matelassé comes from French and means 'Quilted' or 'padded'. In matelassé weaving, two layers of fabric are combined using an additional weft thread. This extra thread is inserted to create raised areas in the fabric, resulting in a relief pattern. The outcome is a fabric with a quilted appearance and beautiful texture.

Chapter 2

Elegance in the unexpected

In a world that constantly reinvents itself, it's often the unexpected that leaves the strongest impression. Chapter 2 of Essenza's Autumn/Winter 2025 collection invites you into a universe where refinement and seduction go hand in hand. A world of enchantment, where artisanal craftsmanship comes to life in the most surprising combinations. Classic patterns meet lush floral prints; clean lines intertwine with flowing shapes in a playful yet mysterious harmony. This chapter celebrates the beauty of the unexpected in everyday life, where understated elegance merges with bold

colours and rich textures. It's the art of seduction—subtle yet powerful—expressed through layered details. Here, beauty is not only seen, but felt. An invitation to embrace the comfort of home while wrapping yourself in the enchantment of unique designs that continue to captivate, time and again.

This chapter unfolds in two drops:

Drop 3—The art of layering and Drop 4—Garden of secrets. Two surprising chapters within one story, where textures, layers and details take centre stage.

Drop 3

The art of layering

This drop captures Essenza in its purest form. The classic Mira stripe meets rich floral prints and solids in an unexpected interplay of layer upon layer, tone on tone. Be carried away by

designs featuring artisanally refined details, and discover a colour palette that strikes the perfect balance between elegance and allure.

Melipa Pale purple

100% TENCEL™ lyocell, jacquard woven
 100% TENCEL™ lyocell, jacquard geweven
 100% TENCEL™ lyocell, Jacquard gewebt

The tonal floral print on the Melipa duvet cover is inspired by the Arts & Crafts movement – a British design philosophy from the late 19th century that celebrated artistry and craftsmanship. Thanks to the rich jacquard weave, the pattern gains depth, texture, and a subtle sheen, giving your bedroom a stylish and serene appearance. Flip the duvet cover over to reveal a plain reverse in the same colour – ideal for subtle variation.

Pure softness with a sustainable touch. Made from 100% TENCEL™ lyocell, this fabric offers a silky-smooth feel that remains even after frequent washing. With breathable and temperature-regulating properties, it keeps you comfortable all year round – cool in summer, pleasantly warm in winter. Melipa is also hypoallergenic and kind to the skin, making it ideal for those with sensitive skin or allergies.

Maribel Pale purple

100% yarn dyed cotton matelassé, reverse satin woven

100% garen geverfd katoen matelassé, achterzijde satijn geweven

100% garngefärbte Baumwolle Matelassé, Rückseite Satingewebe

Discover the Maribel duvet cover: this refined floral pattern has been carefully transformed into a beautiful matelassé design. Through this unique weaving technique, the flowers gain a subtly quilted effect, bringing each bloom to life with depth and texture. A yarn-dyed technique adds a delicate structure to the fabric, giving Maribel its elegant character – perfect as a modern classic for any bedroom. The reverse side of both the duvet cover and the pillowcases is plain and smooth, ensuring a restful night's sleep.

Matelassé is a special weaving technique used to create textured fabric. The term matelassé comes from French and means 'Quilted' or 'padded'. In matelassé weaving, two layers of fabric are combined using an additional weft thread. This extra thread is inserted to create raised areas in the fabric, resulting in a relief pattern. The outcome is a fabric with a quilted appearance and beautiful texture.
